Forecast for Saturday 02 Sep 2023

Weather: Dry overnight with some low cloud building in the east of the park through the night with mist and fog developing under the clearest skies further west. Cloud will gradually lift and break through the morning into the afternoon to give way to brighter spells and just the low chance of a light afternoon shower. Dry and largely clear into the evening. Feeling warm with light winds.

Chance of cloud-free hill tops above 600m: 40% at first in the east, increasing to 90% by the afternoon.

Low cloud and visibility: Early valley fog and low cloud above 400m, mainly to the east, lifting to patches around 700-800m mid-morning then above summits by afternoon. Very good visibility once low cloud and fog clears.

Meteorologist's View

Poor visibility and low cloud first thing will require good navigational skills. UV levels still moderate in the afternoon sun with sun protection recommended.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
14:00 on Thu 31 Aug 2023	2.2mm	3.4mm	5.4mm

Forecast for Sunday 03 Sep 2023
